Mojo

- Machine learning technology, patented
- Transcription - translation - interpretive

Security:

The Shredded Data model removes context, eliminating NPI or PHI.

Accuracy:

The Powerful combination of Machine Learning and multiple layers of human validation deploys a Six Sigma quality.

Speed:

Mojo utilizes Azure's' service fabric platform to gain on-demand scaling capability.

Economics:

Mojo eliminates the need for facilities, human resources, security, training and more

Best of Technologies:

OCR, OMR, ICR, Machine Learning, AI

Features

- eX4 is an electronic document exchange network
- Like FedEx over the internet
- Package contains metadata that describes each document in the package
- 3 Methods of delivery: Secure Exchange, Secure Email, Secure Fax
- Comprehensive Tracking system for chain of custody
- Audit trail
- Available within VCF, document management system for easy click/send

Benefits

- eX4 enables one way of exchanging documents with trading partners
- Ability to move large payloads of documents efficiently
- Secure connection
- Tracking system enables accountability

eM4 Compliant Email Service

Advantages

- Effective for B2B / B2C communications
- No logins or passwords
- B2C model does not require authentication
- Simple encryption rules
- Three deployment options
- B2C large attachment support
- Easily scalable to thousands of users
- Disinterested third party (D3P) auditing
- Outlook integration (add-in buttons)

Features inclusive of the Service

eM4 Proof of Agreement

- E-Signing made simple, no setup
- Compatible with all popular file formats and Image types
- Supports up to 100MB to include unlimited attachments
- E-sign event expiration configurable

Proof of Delivery

- Wallet authentication to ensure the identity of the receiver

Proof of Readability

- Proof that the receiver can open and read the attachment

The Complete Workflow

Reimagine what your digital information can do.

The Brokerage Inc.

- *“Managing over 25k agents, Mojo and VCF turned our 4-step process into one. We focus on case management. ”*
- *“Mojo performs the onboarding of new business...”*
- *“With Mojo we can now scale with turnaround times like never before.”*

Shields Brokerage

- *“Using Mojo this AEP was a game changer for our agency.”*
- *“Not having to worry about manually entering all of the applications into our system freed up so much time that we were able to reach out more to brokers to help increase their productivity.”*

Lion Street

Lion Street chose Paperclip, Inc. at the onset of our operations, as our primary document archive and transmission solution for life insurance applications. This decision was based on speed of implementation due to existing carrier connectivity, experience and knowledge of our workflows, and Paperclip's ability to meet or exceed required industry regulations and standards for information security. These two solutions (VCF and MOJO) have proven to work in concert to enable Lion Street to meet the varying needs of our independent practitioners and also create internal operating efficiency and scale for Lion Street.

Thank you!
